

*Ken J. Mascara  
Sheriff of St. Lucie County*

*With the search to find more economical and environmentally friendly means of transportation, many are turning to bicycles, mopeds, scooters, and motorcycles. With these options, there are also differences in the legal requirements when operating these vehicles on the roadways and sidewalks. The information in this pamphlet will discuss the basic needs and requirements for the operation of these vehicles.*

*The Sheriff's office would also like to remind you that although on some vehicles you are not required to wear helmets and eyewear, we do encourage its use for your safety. We also recommend shoes or boots that cover the tops of the ankles, light colored long sleeve shirts or jackets for extra visibility, and long pants for coverage. Remember, even though we all must share the road, you still need to drive defensively. Be observant using all of your senses, tools, and obey all the laws.*

*Ride Safe!*

- 316.130 Pedestrians; traffic regulations
- 316.1995 Driving upon sidewalk or bicycle path
- 316.2065 Bicycle regulations
- 316.2068 Electric personal assistive mobility devices; regulations
- 316.208 Motorcycles and mopeds
- 316.2085 Riding on motorcycles or mopeds

\*According to Florida law, go-peds, mini cycles, and electric (e)-scooters are considered motor vehicles. However, because go-peds, mini-cycles, and e-scooters are not manufactured to meet the required Federal Motor Vehicle Safety Act, they **cannot** be registered for operation on public roadways, even if the operator has a valid driver's license. Unregulated vehicles may be operated on private property only. FSS can be viewed at <http://www.leg.state.fl.us/statutes>.
